The President's Message

Esteemed Colleagues,

On behalf of the board of directors of the Iranian Society of Nephrology (IrSN), I deliver my warm welcome to the delegates of the 12th National Congress of the Iranian Society of Nephrology (NlrSN 12th).

Over the past decades, the IrSN board of directors has been enduring in its commitment to the educational objectives of the Society. In addition to organizing bi-monthly scientific meetings and biennial international congresses, we have pursued our mission by convening the NlrSN every two years. These gatherings feature scientific lectures delivered by experts across various fields of Nephrology, aligning with a unique Congress theme, which we choose for each congress. This theme reflects the most debated topics in Nephrology, aimed at enhancing the knowledge of nephrologists in Iran and the Persian-speaking countries of the region. This year the Congress theme will be "Critical Care Nephrology" and we will try to cover this important field with speakers from all over the country.

We actively encourage young nephrologists to present their latest research findings in NlrSN and will recognize outstanding presentations with awards. Furthermore, we support the participation of young nephrologists from our country and the region by offering complimentary participation in the congress

Following each event, we compile a textbook based on the lectures, serving as a valuable resource for refreshing the knowledge of attendees and providing practical guidance in the specific areas covered by the Congress theme. This will be performed this year, same as before.

This year, our congress will take place in the historic and beautiful city of Zanjan, with a well-established Medical University and a strong nephrology section. According to the theme of this year, i.e., Critical Care Nephrology, we are delighted to host a diverse group of adult and pediatric nephrologists, internists, intensivists, and general practitioners, both as speakers and delegates. We aim to create a pleasant environment for knowledge exchange and networking within this community.

On behalf of the IrSN board of directors, I extend my cordial invitation to all of you and express my gratitude to all outstanding guest speakers for their invaluable contributions to the NlrSN 2024.

Warm regards and best wishes,

A handwritten signature in blue ink, reading "S. Ossareh-M.D.". Below the signature is a long, horizontal, slightly curved line.

Shahrzad Ossareh - M.D.
President of the IrSN and the 12th NlrSN

Secretary-General's Message

Dear Colleagues and Friends,

We are delighted to welcome you to the 12th National Congress of the Iranian Society of Nephrology, to be held from October 9th to 11th, 2024, in Zanjan, Iran. This event will bring together the rich history of this region and the field of nephrology.

The aim of this congress is to foster knowledge sharing to advance kidney disease prevention and enhance the quality of life for patients by providing the latest updates on the clinical assessment and treatment of various pathological conditions. For over 30 years, our Society has been dedicated to reducing the burden of chronic kidney disease in Iran. Education and science have been the strong pillars of the Iranian Society of Nephrology, and this biennial congress is a testament to that commitment. This meeting will be an excellent opportunity to connect with experts and peers, exchange ideas, and share best practices.

We will cover a range of topics in Critical Care Nephrology, including Acute Kidney Injury (AKI) in critically ill patients, inter-organ cross-talk involving the kidneys, AKI in specific clinical scenarios, fluid management in critical patients, acid-base and electrolyte disorders in critically ill patients, critical conditions in kidney transplantation, renal replacement therapy in the ICU, and innovative extracorporeal therapies in managing critically ill patients. These scientific sessions will provide the latest research and diverse international perspectives on these topics.

Finally, we sincerely thank you for attending the 12th National Congress of the Iranian Society of Nephrology in Zanjan, Iran. We look forward to a fruitful and inspiring event.

M. Khosravi- M.D.

Masoud Khosravi-MD

Secretary-General of the IrSN and 12th NirSN

Organizing Team

Organizer:

The Iranian Society of Nephrology

Abstract Submission

Call for Abstracts

The organizing committee of the 12th national Congress of Nephrology, Critical Care Nephrology invites all colleagues to participate in this meeting by submitting abstracts for oral and poster presentations.

Notes on Abstract Submission:

The deadline for abstract submission is **24 Aug 2024 (1403/05/31)**

The final decision will be made by the Scientific Committee, and the authors will be notified of the acceptance status of their submission by **10th Sep 2024 (1403/06/15)**. Abstracts must be submitted online only (www.congress.isn-iran.ir).

Abstracts must describe original work not published previously. For technical support, please e-mail at iran.nephrology@gmail.com

- Abstracts are accepted only in English.
- Abstracts must adequately describe the research performed to allow reviewers to evaluate the quality, originality and thoroughness of the work.
- The abstract must be structured, containing 4 sections: Introductions, Methods, Results, and Conclusions.
- Case reports must have 3 sections: Introductions, Case Presentation, and Conclusions. The title should define the topic and contain no abbreviations. In the body of the abstract, standard abbreviations need not be defined; other abbreviations should be defined on first use.
- The maximum word count per abstract is 350, excluding the title, authors, and affiliations. When submitting multiple abstracts, maintain consistency in the spelling of authors' names.

Touristic Attractions

Katale Khor Cave

One of the most spectacular tourist attractions in Zanjan province is a beautiful limestone cave called Katale Khor. This cave, which is considered one of the most amazing caves in the world, is located in Khodabandeh city, approximately 87 km from Zanjan.

On your trip to Zanjan for the NIrSN, you will be the guest of the IrSN to visit this phenomenal cave on Friday, October 11 (1403/07/20), after the end of the congress, on the way back to Tehran, if you are traveling with the Congress Bus or your private car.

Touristic Attractions

Rakhtshooi Khaneh

Zanjan Great Bazaar

Touristic Attractions

Jame'a Mosque of Zanjan

Travel Routes to Zanjan

The city of Zanjan has an airport which is located 1at 5 kilometers northwest of this city and currently operates only on one route from Mashhad to Zanjan on Thursdays and Fridays. However due to its unique geographical location, Zanjan is the passage of the main railway corridor of the country, as shown in the figure bellow, with 4 train trips each day from Tehran, Tabriz and Miyaneh. Also you can easily travel to Zanjan from Tehran, Azerbaijan, and the Northern and Western cities of Iran, by bus or your private vehicle, in a 4-5 hours trip and enjoy the beautiful route.

Memorial to Dr. Barry Brenner

Dr. Barry Brenner

We offer our heartfelt condolences to his esteemed family, the world nephrology community and Iranian nephrologist colleagues on the death of Professor Barry Brenner, who spent his fruitful life advancing the knowledge of nephrology.

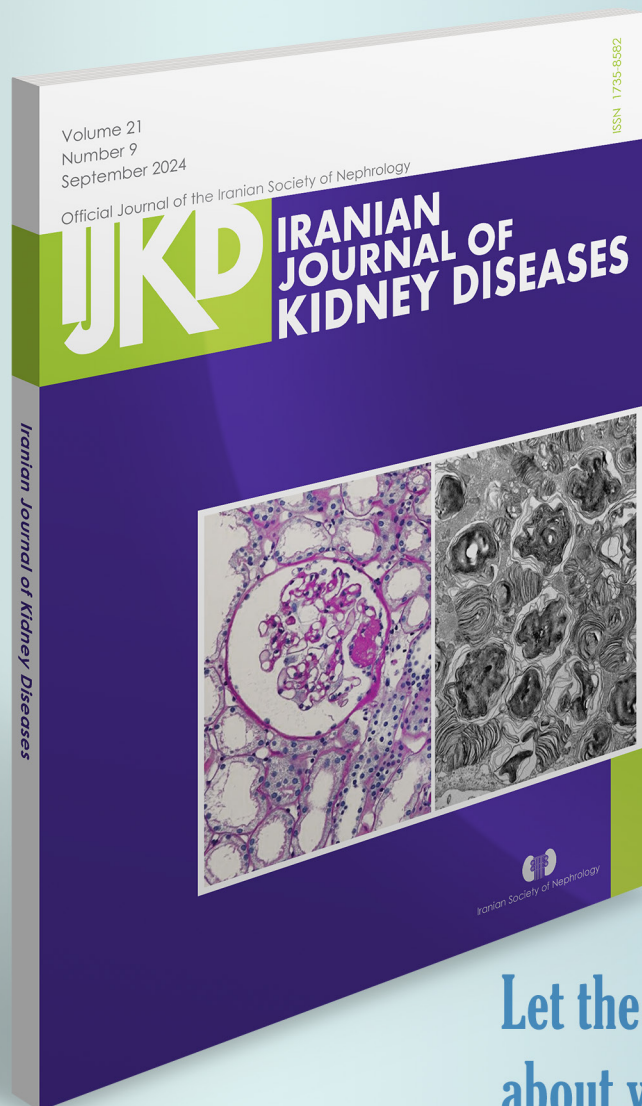

During his trip to Iran, Professor Brenner was very impressed with the advancement of nephrology knowledge in Iran. His passing is considered a loss for the nephrology community throughout the world.

We hope that we can advance the knowledge of nephrology so that we can bring peace and happiness to the mind of this great teacher.
